 - b. With respect to claim 24, the claim has been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a method for manufacturing NMR measurement devices comprising the step of providing a magnet being twisted about the longitudinal axis to form a helical spatial configuration in combination with the remaining limitations of the claim.
 - c. With respect to claims 2-23 and 25-29, the claims are allowed due their dependency of claims 1 and 24 above.
